

Report regarding the container of Gleaner's food sent to Malawi following Cyclone Idai

I have been hearing the report of the impact of our Gleaner's shipment to Malawi following Cyclone Idai. The cyclone devastation the gardens, roads, building, school etc. Without this and other food aid, the cost of human suffering to the country would have been much higher.

We are hearing reports from those who literally had no food and no access to food, who would not be telling any story without this soup. It literally was a life and death situation.

Thank you those who gave so generously to this is project and a very special thank you to FV Gleaners for their partnership with us. They responded so quickly and with such enthusiasm.
